

## ATI CAT 1000 Technical Data

|                          |   |
|--------------------------|---|
| <b>Motors</b>            | 2 DC motors, nominal output 2 KW each                       |
| <b>Gearbox</b>           | Self-impeding worm gearing                                  |
| <b>Brakes</b>            | Electromechanical brake system - via worm gearing           |
| <b>Steering</b>          | Tank steering by means of a joystick                        |
| <b>Control</b>           | Forward and reverse drive directions by means of a joystick |
| <b>Batteries</b>         | 4x 12V dry cell batteries 100Ah each                        |
| <b>Battery Charger</b>   | Standard equipment 10A electronically controlled            |
| <b>Driving Speed</b>     | Continuously adjustable from 0 – to max. 3 km/h             |
| <b>Climbing capacity</b> | Approx. 60%   |
| <b>Weight</b>            | Leergewicht ca. 300 kg, max. Zuladung 300 kg                |
| <b>Caterpillar size</b>  | 180X72X37   |
| <b>Loading Platform</b>  | Length: 1100 mm, width: 700 mm, tiltable                    |
| <b>Machine length</b>    | 1800 mm   |
| <b>Machine width</b>     | 700 mm  |
